

THE IMPORTANCE OF RECEIVING COLLEGE EDUCATION IN OUR MODERN WORLD

This justifies the importance of education in the modern world. This increases the demand for actually getting a seat in an industrial firm as the stakes are very high. labour speeds up productivity thus driving our economy to higher levels.

The importance of education for children are many. Proper exposure of education to children will leave a permanent mark and will enable them to sustain a successful life. These people , so called pioneers will help lead the country to a higher level. Will work hard to grow and develop themselves. Why Education is Important for Children? Education in this matter will help people invent new things to help preserve and build a better environment. Modern education is liberal, open, and exoteric. If education can be made more accessible to the public, all those students who are experiencing a rejection of pursuing a meaningful, educated life will now be able to finally follow their dreams by learning and absorbing what they are taught. Without innovation , nothing actually improves. Most people thinking that getting an education is merely to get a seat in a firm , work all day long and get rewarded with money. People learn basic norms, rules, regulations, and values of society through education. We were not born in this world to go through this rat race for getting degrees, but unfortunately, the people who made such decisions for us, or rather forced these decisions upon us, are the ones who had a different understanding of education and its importance in the real world. It will help you to get a job. It will help us to know what harm we are doing to the world and guides us to protect the world from all dangers which are caused by human beings. Education gives us the confidence to stand for ourselves. It is a common sight to see small kids carrying really heavy bags to and fro from school, which actually stunts their physical development. Happier and Healthier Lives One of the most important benefits of education is how it improves personal lives and helps societies run smoothly. It helps to protect ourselves from the other harmful events and helps you keep educating of current dangers, diseases and ways to face or prevent them. A piece of paper that gets you a job? It is a stage to explore themselves. This ensures students focus. Aristotle 7. It is even one of the biggest competitions between different countries throughout the world. In return , it will help every single company in terms of cutting down loss and expanding their profit margin. In conclusion , education is the backbone of all great achievements , the root of all modern marvels and it continues to shape our world. The basic idea that education, especially a college education, is something that people should pursue even into their adult years is not by any means a new idea. John Dewey 5. It is not about learning life, but education itself is life. Education is also a prerequisite of the prosperity and modernization of any country. Through education , people can learn to be civilized and would be more content to have awareness to the environment. A good education teaches a person the art of living life to the fullest. People use education for more than just to get a job , it helps us secure a good path to the future and and helps us realize the actions and consequences we will face with every decision we take in life. A gift of knowledge can bring us to the top of our dreams. Leo Buscaglia 8. According to Michael Kruger and Ernest Abel in the Psychological Reports journal, the rates of suicide for educated individuals is far lower than their uneducated counterparts. Education is the only solution. Science itself is many different regions of study compiled and meshed together. Society basically says the more educated you are, the better off you are. Education will help to interact with different kinds of persons and exchange knowledge and ideas and live in harmony. It maintains equality between people even if they are holders of different sets of opinions. An educated person respects everyone who is older than him and reserves special regard for the elderly and ladies. Allan Bloom 9. It will help to understand each and every individual roles and responsibility to build the society. Albert Einstein
